DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#109 is a 2-1/2 story brick detached house, four bays wide and three bays in depth with an "L" shaped, two story brick wing, four bays long and one bay wide with a long side balcony and a two bay long rear extension. All brickwork is in unpainted common bond. The very attractive, newer Federal style entranceway occupies the second bay from the left with a ten panel door covered with ovals with a paneled enframement, rectangular transom, fluted Doric pilasters, and a wooden frieze topped by a scrolled broken pediment with a center urn. This is approached by a four step concrete stoop with sidewalls. All front and rear area windows now have 1/1 sash with wood lintels and sills and louvered shutters, except for a 6/6 sash JIB window-door on the rear of the front section. This front section has a steep slope "A" frame roof of slate on three string brick cornices on the front and rear. Wide enclosed chimneys rise from each gable with a small window on either side. The wing has a shed roof. This house rests on a high fieldstone foundation. There are side and rear gardens with evergreens and trees.
